

Fear and Aggression Seminar
Puppy Power Training Facility
900 Guelph Street, Kitchener

October 16th & 17th, 2010

Norma Jeanne of Puppy Power, Greg Ceci of Puppy Passions and Sue Plouffe of Perfect pups are offering a two-day seminar on Fear and Aggression.

This seminar will provide you with an understanding of fear and aggression with lectures, as well as, visual case studies that show you how to solve fear and aggression problems. The seminar is geared towards professionals and dog owners.

Registration cost is \$195 for both days.

NOTE: Only \$175 for IPDTA members, CCS students and grads, vets and staff, rescue organizations and SPCA Staff. **This special price is offered to all TPOC members too!**

Topics include:

Norma Jeanne will talk about the importance of positive techniques when treating aggression. She will explain why punishment is responsible for the death of many aggressive dogs. You will learn how to change the dog's emotional state and why this is the key to stopping fear and aggression. She will also teach you how to keep everyone safe while working with aggressive dogs.

Carrie will be presenting working with Fearful Canines – Concerns, Common Problems and their Solutions. Whether you work or live with a fearful dog, an unhappy dog should never be ignored. Not only is its quality of life compromised, it can be downright dangerous. This lecture will teach you how to identify problems and the techniques responsible trainers use to solve them. Carrie will teach you techniques that address the root cause of the problem, not just the symptom. She will teach you how to create confidence with as little stress as possible and without further compromising the dog's temperament.

Greg will be presenting aggression: There is a lot of conflicting information and/or misinformation about canine aggression and its treatment. It's no wonder why dog trainers, handlers and guardians are confused about aggression and are often at their wits end on how to treat it.

Greg will strip away the rhetoric and break down canine aggression into simple, easy to understand terms
